

RAILROAD COMMISSION OF TEXAS
Critical Infrastructure Division

NOTICE TO OIL & GAS AND PIPELINE OPERATORS

Winter Weather Outlook

The National Weather Service is predicting chances of snow in parts of the Midland-Odessa and Panhandle regions late Thursday into Friday.

While there is still some uncertainty about the extent of the wintry precipitation, the Railroad Commission of Texas (RRC) advises all operators under the RRC's jurisdiction in areas of potential impact to take the following actions:

- Monitor local, state and national weather reports for updates on potential severe weather impacts;
- Heed all watches, warnings, and orders issued by local emergency officials;
- Secure all personnel, equipment, and facilities to prevent injury or damage; and,
- Monitor operations for potential impacts, as safety permits.

The RRC maintains a 24-hour, toll-free emergency line, 844-773-0305, to report emergencies, including leaks or spills and damage to gas pipelines.
