**Public Comment Deadline** — 12 p.m. CST on Monday, December 2, 2024

**Action (new, amend, and/or repeal)** — Amendments to Existing Rule

#### **Summary**

Texas Government Code Section 2005.003 requires state agencies like the RRC to adopt procedural rules for processing permit applications and issuing permits. The rules are also required to list the processing time for permits issued by the RRC that require more than seven (7) days to process. The proposed amendments also update references to other RRC rules in §1.201 and in the table found in the rule, and make other updates and clarifications.
