**Subject:** Rule 8

Good day all,

My name is Dr. Megan Gordon, a republican,  
residing in Grimes County, TX.

It has come to my attention that Railroad Commissioners have absolutely nothing to do  
with railroads, but oil and gas.

The name itself is a lie to the public and it's voters.

I am contacting you about the proposed revision of Rule 8.

A Common Sense issue of requiring 1) notification of land owners leasing their property  
that drilling waste is going to be disposed of on their land 2) pit liners and covers at all  
sites of disposal to protect the water table, regardless of distance to any water source,

to protect wildlife, livestock, and humans.

I see large parcels of land all around me being sold off as subdivision development. Land lease agreements must include a clause regarding drilling to include waste requirements to the lessor and the owner.

These requirements must be included to any change proposals of Rule 8.

These are just a few steps to enforce keeping Texas a safe place to live now and all the years to come.

Thank you

Sincerely,

Dr. Megan H. Gordon  
2678 CR 155  
Bedias, TX 77831
