**Subject:** New Changes to Waste Handling & Dumping Rules by Jim Wright & Others

To Whom It May Concern,

Know that I do not support the changes proposed, & in fact think that we should re-write the entirety of these laws & rules with 0.0% input from Oil & Gas Industry lobbyists or company representatives or executives. It's a flat out conflict of interests, & I can't believe that 2 years of Oil & Gas executives crafting legislation compared to the MEASLY amount of time to respond? Clearly crafted not to help Texans, but to help the corporations. I do not support this in its entirety.

Thanks,

Jared D. Hawthorne, Texas Resident of Tarrant County
